Data Protection

- NYCC Resilience and Emergencies store two copies of your plan, one on our internal server and a second on a site called Resilience Direct (Resilience Direct is a secure government website which emergency responding agencies use). Both locations can only be accessed by our team.

- *ResilienceDirect is a secure online storage which sits outside our ICT network and therefore allows us to access the plans in the event of an incident if we had an ICT failure. This is under the legal basis within the new regulations of a “Public task”.*
- *We will store a copy of your plan until we receive an updated version with amended contact details. In this instance the original copy will be deleted.*
- *If at any time you or any member of your community would want to request their details to be deleted, then you can contact NYCC Resilience and Emergencies team and we will remove their contact details from both copies of the plan we hold.*
